13. (Original) A method for applying a dressing to a patient, the method comprising the steps of:
  - providing a film having a top side and a bottom side;
  - providing the bottom side of the film with an adhesive;
  - providing a liner having a non-adhesive coating removably attached to the adhesive coating;
  - providing a casting sheet releasably attached to the top side of the film wherein the casting sheet has a top surface;
  - providing a gripping strip attached to the top surface of the casting sheet;
  - providing a hinge;

holding the hinge;  
removing the liner;  
holding the gripping strip and the hinge;  
applying the casting sheet, the film, and the adhesive to the patient; and

removing the hinge.

14. (Original) The method of Claim 13 further comprising the step of:

removing the casting sheet from the film.

15. (Original) The method of Claim 13 further comprising the step of:

providing a pattern on the casting sheet.

16. (Original) A process for manufacture of a dressing, the process comprising the steps of:

providing a roll having a casting sheet, a film, a pressure sensitive adhesive and a liner;

providing a tab;

providing tape;

folding the tab;

inserting the folded tab between the film and the pressure sensitive adhesive;

applying the tape to the casting sheet;

folding the tape around the casting sheet; and

applying the tape to the casting sheet.

17. (Original) The process of Claim 16 further comprising the step of:

inserting the folded tab between the film and the pressure sensitive adhesive.

18. (Original) The process of Claim 16 further comprising the step of:

printing instructions on the tab.

19. (Original) The process of Claim 16 further comprising the step of:

printing instructions on the liner.

20. (Original) The process of Claim 16 further comprising the step of:

printing the casting sheet with a pattern.
